

University of Maryland Medical Center
Shadow/Share day experience with a Certified Registered Nurse Anesthetist
(CRNA)

When considering a career in nurse anesthesia, individuals often have a great deal of questions about the profession. A shadow experience with a nurse anesthetist is an essential preparatory step to take for anyone who is interested in pursuing a career in nurse anesthesia. This experience will allow interested candidates to spend a half-day in the operating room and observe first-hand the dynamic practice of CRNAs.

Shadow days are limited to 2 per candidate, each experience will last approximately 5-6 hours.

Requirements:

- Possess a bachelor's degree in nursing.
- A minimum of one year ICU experience.
- Submission of a current CV.

Interested candidates should submit their CV to:

Sharee Miller, MSN, CRNA
