

Electives and Sub Is

# Choosing Elective and Sub I Courses

- Flexible options within framework of graduation requirements
- Consider personal and professional interests and goals
- You may consider courses that will
  - Help you explore or confirm a specialty of interest
  - Fulfill a personal interest
  - Be useful in preparation for internship
  - Be useful in preparation for specialty-based courses (e.g. pre-requisites)
  - Achieve other professional goals, e.g., Research

# Choosing Elective and Sub I courses

- In addition to this resource, students may seek scheduling advice from senior students, departmental faculty, and OSA advisors
- Additional information can also be found in the OSA Student Handbook, under Clinical Sites and Scheduling

# Additional Considerations

- Addiction Medicine
- Dermatology
- Emergency Medicine
- Endocrine & Diabetes
- Infectious Disease
- Laboratory Medicine
- Ophthalmology
- Psychiatry
- Radiology
- Pain Management
- Patient Safety/Quality Improvement
- Palliative Care

Consider Choosing  
Something  
“Universal” to any  
future specialty

# Additional Considerations

- Anesthesiology
- Emergency Medicine
- Internal Medicine Sub I
- Critical Care

Consider choosing something that will enhance universal skills

I like this specialty...  
is there more?  
Electives and Sub-I  
experiences that may add to  
your specialty choice  
experience

Not exhaustive lists 😊 and not everything is offered every cycle or rotation.
